CALCULATOR FUNCTIONS

Note: Entering numbers and their operators can be done in three ways: (1) using the numeric keypad on the keyboard, (2) using the numbers on the typewriter keyboard, or (3) using the pointer to click the numbers and operators on the calculator. When an unformatted schedule is appropriate, press Ctrl + W in a numeric field to produce a detailed worksheet.

DESIRED ACTION	OPERATOR	INSTRUCTIONS
To access the calculator in a numeric field	F10	With the cursor in the desired field during return data entry, press F10.
Clear a number	NUM-LOCK	Press NUM-LOCK key on the keyboard to clear the current calculation or click the C button on the calculator.
Insert calculation total in data entry field	F1 or F1-Insert Result	With the desired total in the summary field, press F1 or click F1-Insert Result on the screen. The calculator closes and the calculation total transfers to the active data entry field.
To exit the calculator	Esc	To deactivate the calculator without inserting data in a field, press Esc or click ESC-Quit on the screen.
Addition	+	Enter the number to be added and press +.
Subtraction	-	Enter the number to be subtracted and press -.
Multiplication	*	Enter the first number in the equation and press *. Then, enter the second number. Press ENTER or click = on the screen to complete the calculation.
Division	/	Enter the number that you wish to divide and press /. Then, enter the number that you wish to divide by. Press ENTER or click = on the screen to complete the calculation.

FREQUENTLY USED CODES

FIELD	CODE	APPLICATION
TS or TSJ	T	Assigns data to the primary taxpayer. The program defaults to T if the field is left blank.
	S	Assigns data to the spouse.
	J	Assigns data to both the taxpayer and spouse.
F	0 (zero)	To exclude data from the federal return, enter 0 (zero).
ST	State Code	For a state return, enter the appropriate two-letter state code (postal service abbreviation). If the field is left blank, the program defaults to the resident state.
	0 (zero)	To exclude data from any state return, enter 0 (zero).
	PY	For multi-state returns, use PY as the resident state code on screen 1. Do not use PY on any other screen.
C	City Code	For city returns, enter the appropriate city code to indicate the source of income.
Multiple	1-999	For Form 4562 (depreciation), indicate the appropriate schedule for the depreciated item in the For field. Indicate where the information should be carried when there are multiple schedules.

SEARCH EF DATABASE

KEY	FUNCTION	INSTRUCTIONS
F1	General information	View basic EF information about the taxpayer: taxpayer information, federal and state acknowledgement codes, acknowledgement dates, transaction date, filing status, refund amount, or balance due.
F2	Bank information	Access detailed loan information, direct deposit information, Declaration Control Number, etc.
F3	Fees/miscellaneous information	Access miscellaneous information, including Earned Income Credit and AGI, MISC field data, firm and preparer numbers, and tentative fee distribution details.
F4	Reject code lookup	Access the reject code lookup feature, which allows you to search for federal and state reject code descriptions, loan status codes, and bank decline reasons.
F5	Return to data entry	Opens return data entry for the client.
F10	Online Database	View your online database from data entry or from your EF Database.
